# Health and Safety Policy for Fairfield Village Hall

## Part 1 General Statement of Policy

This document is the Health and Safety Policy of Fairfield Village Hall.

Our policy is to:

- a) Provide healthy and safe working conditions, equipment and systems of work for our employee(s), volunteers, committee members and hirers.
- b) Keep the village hall and equipment in a safe condition for all users.
- c) Provide such training and information as is necessary to staff, volunteers and users.

It is the intention of Fairfield Village Hall Management Committee to comply with all health and safety legislation and to act positively where it can reasonably do so to prevent injury, ill health or any danger arising from its activities and operations.

Fairfield Village Hall Management Committee considers the promotion of the health and safety of its volunteers and employees at work and those who use its premises, including contractors, who may work there, to be of great importance. The management committee recognises that the effective prevention of accidents depends as much on a committed attitude of mind to safety as on the operation and maintenance of equipment and safe systems of work. To this end, it will seek to encourage employees, volunteers, committee members and users to engage in the establishment and observance of safe working practices.

Employees, volunteers, hirers and visitors will be expected to recognise that there is a duty on them to comply with the practices set out by the committee, with all safety requirements set out in the hiring agreement and with safety notices on the premises and to accept responsibility to do everything they can to prevent injury to themselves or others.

Signed: (On behalf of the Management Committee)

Name: Geoff Cotterill

Position: Chairman

Date: 31st August 2025

## Part 2: Organisation of Health and Safety

The Fairfield Village Hall Management Committee has overall responsibility for health and safety at Fairfield Village Hall.

The persons delegated by the management committee to have day to day responsibility for the implementation of this policy are:

### 3.4 Safety Rules

All hirers will be expected to read the whole of the hiring agreement and should sign the hiring form as evidence that they agree to the hiring conditions. All new hirers will be given information by the Bookings Secretary about health and safety procedures at the hall which they will be expected to follow (e.g. fire evacuation procedures, use of trolleys to move equipment, use of equipment) and will be shown the location of the accident book and health and safety file.

The Village Hall Management Committee have carried out risk assessments, including those for hazardous substances and fire, for the Village Hall & car park that is reviewed each month, which is based on known information.

It is the intention of Fairfield Village Hall Management Committee to comply with all health and safety legislation and to act positively where it can reasonably do so to prevent injury, ill health or any danger arising from its activities and operations.

Employees, volunteers, hirers and visitors will be expected to recognise that there is a duty on them to comply with the practices set out by the committee, with all safety requirements set out in the hiring agreement and with safety notices on the premises and to accept responsibility to do everything they can to prevent injury to themselves or others.

### **The following practices must be followed in order to minimise risks:**

- Make sure that all emergency exit doors are clear and unlocked as soon as the hall is to be used and throughout the hiring.
- Do not operate or touch any electrical equipment where there are signs of damage, exposure of components or water penetration etc.
- Do not work on steps, ladders or at height until they are properly secured and another person is present.
- Do not leave portable electrical or gas appliances operating while unattended.
- Do not bring into the property any portable electrical appliances which have not been Portable Appliance Tested.
- Do not attempt to move heavy or bulky items (eg. stacked tables or chairs) – use the trolleys provided.
- Do not stack more than ten chairs.
- Do not attempt to carry or tip a water boiler when it contains hot water. Leave it to cool.
- Do not allow children in the kitchen except under close supervision (eg for supervised cookery lessons or, in the case of older children, for supervised serving of food at functions). Avoid over-crowding in the kitchen and do not allow running.
- Report any evidence of damage or faults to equipment or the building's facilities to **Caretaker or FVH Chairman**.
- Report every accident in the accident book to **Secretary (or Chairman)**
- Be aware and seek to avoid the following risks:
  - Creating slipping hazards on stairs, polished or wet floors, - mop spills immediately
  - Creating tripping hazards such as buggies, umbrellas, mops and other items left in halls and corridors
  - Use adequate lighting to avoid tripping in poorly lit areas
  - Risk to individuals while in sole occupancy of the building
  - Risks involved in handling kitchen equipment e.g. cookers, water heaters and knives
  - Creating toppling hazards by piling equipment e.g. In store cupboards.

### **3.5 Contractors**

The management committee will check with contractors (including self employed persons) before they start work that:

- The contract is clear and understood by both the contractor and the committee
- The contractors are competent to carry out the work eg. Have appropriate qualifications, references, experience
- Contractors have adequate public liability insurance cover.
- Contractors have seen the health and safety file and are aware of any hazards which might arise (eg electricity cables or gas pipes)

- Contractors do not work alone on ladders at height (if necessary a volunteer should be present)
- Contractors have their own health and safety policy for their staff.
- The contractor knows which member of the committee is responsible for overseeing that their work is as asked and to a satisfactory standard
- Any alterations or additions to the electrical installations or equipment must conform to the electrical current
